

Says

What have we heard them say?
What can we imagine them saying?

Thinks

What are their wants, needs, hopes, and dreams?
What other thoughts might influence their behavior?

I want to understand the factors that influenced candidate's performance.

I'm looking for data-driven insights into Indian politics.

I wonder if this research will shed light on the dynamics of Indian politics.

Did candidate demographics play a significant role?

Were there any patterns or trends in candidates performance?

I need to provide data-driven insights into the 2019 Lok Sabha elections.

Dr.Rajesh Kumar

A seasoned political scientist and professor at a leading university. His analysis of the 2019 Lok Sabha elections is highly anticipated in academic circles.

Engages in discussions: May participate in debates or conversations about the elections based on the research.

Curious: About the findings and conclusions of the study.

Reads the research paper: To access the quantitative analysis and conclusions.

Shares findings: If they find the study insightful, they may discuss it with others.

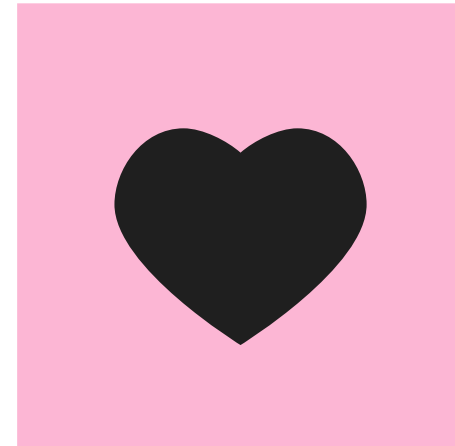

Hopeful: That the research will contribute to a better understanding of Indian politics.

Informed: If they gain insights into candidates performance.

Does

What behavior have we observed?
What can we imagine them doing?

Feels

What are their fears, frustrations, and anxieties?
What other feelings might influence their behavior?
